Firewall Configuration

Firewall information

Name	Number of rule(s)	Created date	Last updated
fw auditwise	4	2026-03-07	2026-03-08

Edit name Delete

By default, the Hostinger VPS Firewall drops all incoming traffic, which means you must add accept rules for all ports you want to use.

Add firewall rule

Action: Accept | Protocol | Port (or range) | Source | Source detail | Add rule

Action	Accept
Protocol	TCP
Port (or range)	22
Source	Any
Source detail	Any

Edit

Action	Accept
Protocol	TCP
Port (or range)	80
Source	Any
Source detail	Any

Edit

Action	Accept
Protocol	TCP
Port (or range)	443
Source	Any
Source detail	Any

Edit

Action	Drop
Protocol	Any
Port (or range)	Any
Source	Any
Source detail	Any
